## Auditors' Report.

---

We, the undersigned, Auditors of the Town of Epping, have examined the accounts of the Selectmen, Town Treasurer, Town Clerk, Treasurer of School District, Treasurer of Public Library and Police Justice, and find them correctly cast and properly vouched. We have also examined the books and accounts of the Tax Collector for the year 1911, and find them correctly cast, and that he has squared his books and paid over to the Town Treasurer all money in his hands.

## Report of the Board of Health.

---

The Board this year entertained the usual number of complaints respecting existing nuisances, and all were carefully investigated and remedied, according to the nature of the case. There were the usual number of cases of typhoid, measles, and other fevers requiring the attention of the Board.

On October 8 Dr. Mitchell reported a case of smallpox at the house of Eugene Shuff. The house was immediately placed under quarantine, with Dr. Mitchell in charge of the case. The Board took all the necessary precautions to prevent the further spreading of the disease beyond the house quarantined.

Every thing was done for the welfare of the patient, and great credit is due to the attending physician, and so well was the case attended to, that not even another member of the family was taken sick.

Respectfully submitted,

ALBERT C. BUSWELL, M.D.,  
JOS. O. ROSS,  
AUGUSTUS D. BROWN,

## SCHOOL BUILDINGS.

Our school buildings in use are in good condition.

Only the ordinary repairs have we been obliged to make this year. One building, the Intermediate, has received one coat of paint, as your committee felt this plan would be more economical than to delay and give it two coats later. Our buildings not in use are beginning to need repairs. The article in the warrant in relation to these buildings will give the town an opportunity to advise the School Board.

## HIGH SCHOOL.

There is a senior class this year to be graduated in June. The members at present are as follows:

Estelle M. Dearborn, Alice E. Ladd, Hazel M. Allen, Chester T. Thing, Edgar T. Clough.

Our High school is approved annually by the State. The certificate of approval for this year is in the hands of your committee, and this was granted only after a proper investigation of the actual facts in reference to the work being done.

## WEST EPPING SCHOOL.

This school has been under the instruction of Miss Myra E. Huckins, who came to us with several years of experience and has proved herself capable of conducting the school successfully. Your Superintendent has visited the school weekly and has tried

to unite his efforts with those of the teacher so as to give the young people of this portion of our town their full share of the educational advantages that the town offers.

### GENERAL CONDITIONS.

Our educational system has been greatly strengthened during the past year through the town's approval of employing an additional trained teacher in the grades. All educators, without a single exception, who have had in the past the schools in charge, have always advocated what did not come to a reality till last fall. At last we have the grades in good educational training. The old-time restlessness that frequently was so marked is gone. Scholars are at work. Kindly visit our schools and note in particular this one characteristic — something in the line of study and educational advancement is being done continuously. There is not that confusion of former times. Things are more orderly and systematic, for they can be, and are attended to.

Each teacher's work is now great, but not cumbrous to such an extent that a good portion must remain undone to the detriment of the school and the educational interests of all concerned. With this one year's trial we recommend its continuance unhesitatingly and without reservation. The additional expense that this has entailed is comparatively at a minimum. A school-room was gained by a partition through the commodious room of the grammar school. These two rooms at present are sufficiently large for our needs and have proved fairly satisfactory, but we do recommend for the near future a separate building for grades V and VI, for the acoustics of one room does interfere with that of the other somewhat objectionably, but not so much as it was at first feared. The present plan has obviated any extra heating expense. The seating capacity was too small, but by a rearrangement of desks in both the grammar school and the intermediate school it was found it would not be necessary to purchase any additional seats. This plan resulted in quite a saving. The instruction of the new room is apparently quite a

large additional expense, but in reality is exceptionally small when compared with the results attained. To illustrate:

*Dr.*

Wages of new teacher for school year .....\$432 00

*Cr.*

State rebate ..... \$72 00

Intermediate school (no assistant) ..... 216 00

---

\$288 00

Additional expense .....\$144 00

Thus we find the town is being put to an extra additional expense of only \$4 per week for instruction of the new room.

It is a pleasure to direct the work under the present conditions. We wish to call attention to the improvement in handwriting during the past year. Good writing has been demanded. The writing books testify as to the quality of work being done. Many of our business men have justly criticised the barely legible writing of pupils occasionally in their employ, also the inexcusably poor spelling. A strenuous effort has been made to avoid further criticism in this direction. A new spelling book, the "Champion," has been introduced and it seems to meet the needs of our scholars admirably. We shall continue to keep these subjects well to the front. Arithmetic, both oral and written, has by no means been lost sight of. Scholars have not depended on one text-book alone, but rather problems have been taken from several books. The "Answers" have been kept in the background and the pupils have been taught to reason for themselves. The old "fishing process" is, we trust, entirely obliterated from our schools. The language work has shown a decided improvement over last year. Themes for compositions have been frequent and they have been carefully corrected by the teachers, who have insisted upon neatness, correct spelling, proper punctuation and good English. Analysis of difficult sentences and parsing of words are paving the way of the seventh and eighth grade pupils in suitable shape for entrance into the freshman

class of the High school, so that Latin will not be a "bore" and the college requirements in English most undesirable studies. Geography and history have been taught in a very practical way and in accordance with some of the very best methods. In all studies the "collateral" idea of teaching has been used to a great degree, and it has indeed proved very effective, oftentimes arousing thereby the pupil's intellectual activities and giving him a broader vision.

#### THE AMERICAN FLAG.

A committee from the Molly Stark Chapter, Daughters of the American Revolution, for the prevention of Desecration of the Flag, have presented through your Superintendent circulars on the use and forbidden abuse of the American Flag, to be kept in certain text-books of the pupils, so that these patriotic ideas shall ever hold a prominent place in the mind of each pupil. We appreciate this little gift and every effort will be made to carry out the desires of the donors.

#### TUBERCULOSIS.

A tuberculosis poster has been hung in each school-room, through the kindness of the Epping "W. C. T. U." This idea is endorsed by the State Superintendent of public instruction, and our teachers will do their part toward helping the red cross anti-tuberculosis crusade in New Hampshire.

In conclusion we wish to express our appreciation of the faithful work of our corps of teachers, also the co-operation of parents and others in our efforts to improve the educational system of our town.
